

## SHOWJUMPINGIRELAND RISK ASSESSMENT TEMPLATE

**NOTE:** The completion and implementation of the risk assessment is the responsibility of the Show Organiser and the appointed Chief Safety Officer. The purpose of the hazard identification in this sample risk assessment is to assist in minimising the possibility of general risks referred to and does not imply that no other hazardous conditions exist. Risk Assessments must be revised at least annually or as required by changes in the venue. Additional risk assessment templates have been included so that location specific hazards identified can be recorded and controlled in advance of the event or as required. Show Organisers must keep records up to date and on file, available for inspection in the Secretary's Office on Show days.
