[A]	1.5M to 2.0M
[B]	Maximum 4.0 M
[C]	1.0M to 1.5M
[D]	0.5M
Min. Plastic Barrier Height - 1.1M	

PRACTICE WARM UP AREA 'HORSE FREE ZONE AREA' LAYOUT EXAMPLE

The idea of a horse free zone is to provide an area within a practice arena where grooms could locate and feel relatively safe from a run out horse in the process of warming up for a competition. It is designed to be symmetrical all around, and be easy for anyone to set up in a practice arena.

Animals and persons in pocket area must be kept to a minimum (i.e. 2 person per athlete). Identify maximum animals based on size of pocket. Display safety information at entrance (e.g. ____ maximum animals permitted) and supervise area.
